I am a recent graduate of undergraduate architecture studies from University of the Arts London.
In the final academic year I belonged to the *Civic Expression Studio* where my design considerations involved public libraries. During this period I designed a *Micro Library* at Guildhall Yard, *Vauxhall Abstract Library* and - as the thesis project - *Vauxhall Library of Declassified Documents*; all of them in London, UK.
In the immediate future I would like to gain hands-on experience related to architectural practice.

EDUCATION

09.2017 – 06.2020	BA Architecture Central Saint Martins University of the Arts London
